

SACRED REBELS

RITUALISTS OF THE HEART

SACRED REBELS

We rebel not to escape the sacred,
but to reclaim it,
in our bodies,
in our work,
in our community.

A crew of embodied edge-walkers
holding space for
depth,
beauty,
and play.

We gather in homes, temples, saunas, and wild fields.

We hold one another with grace, humour, and
presence.

We are the ones who go first
into the fire,
into the mystery,
into the heart.

VISION

To co-create a community where relational living and sexuality is kept sacred, through structure and support, normalisation and education, honouring embodiment, playfulness and divine celebration.

To create a space where facilitators feel deeply supported, seekers find their tribe, and authentic connection thrives within a conscious community.

MISSION

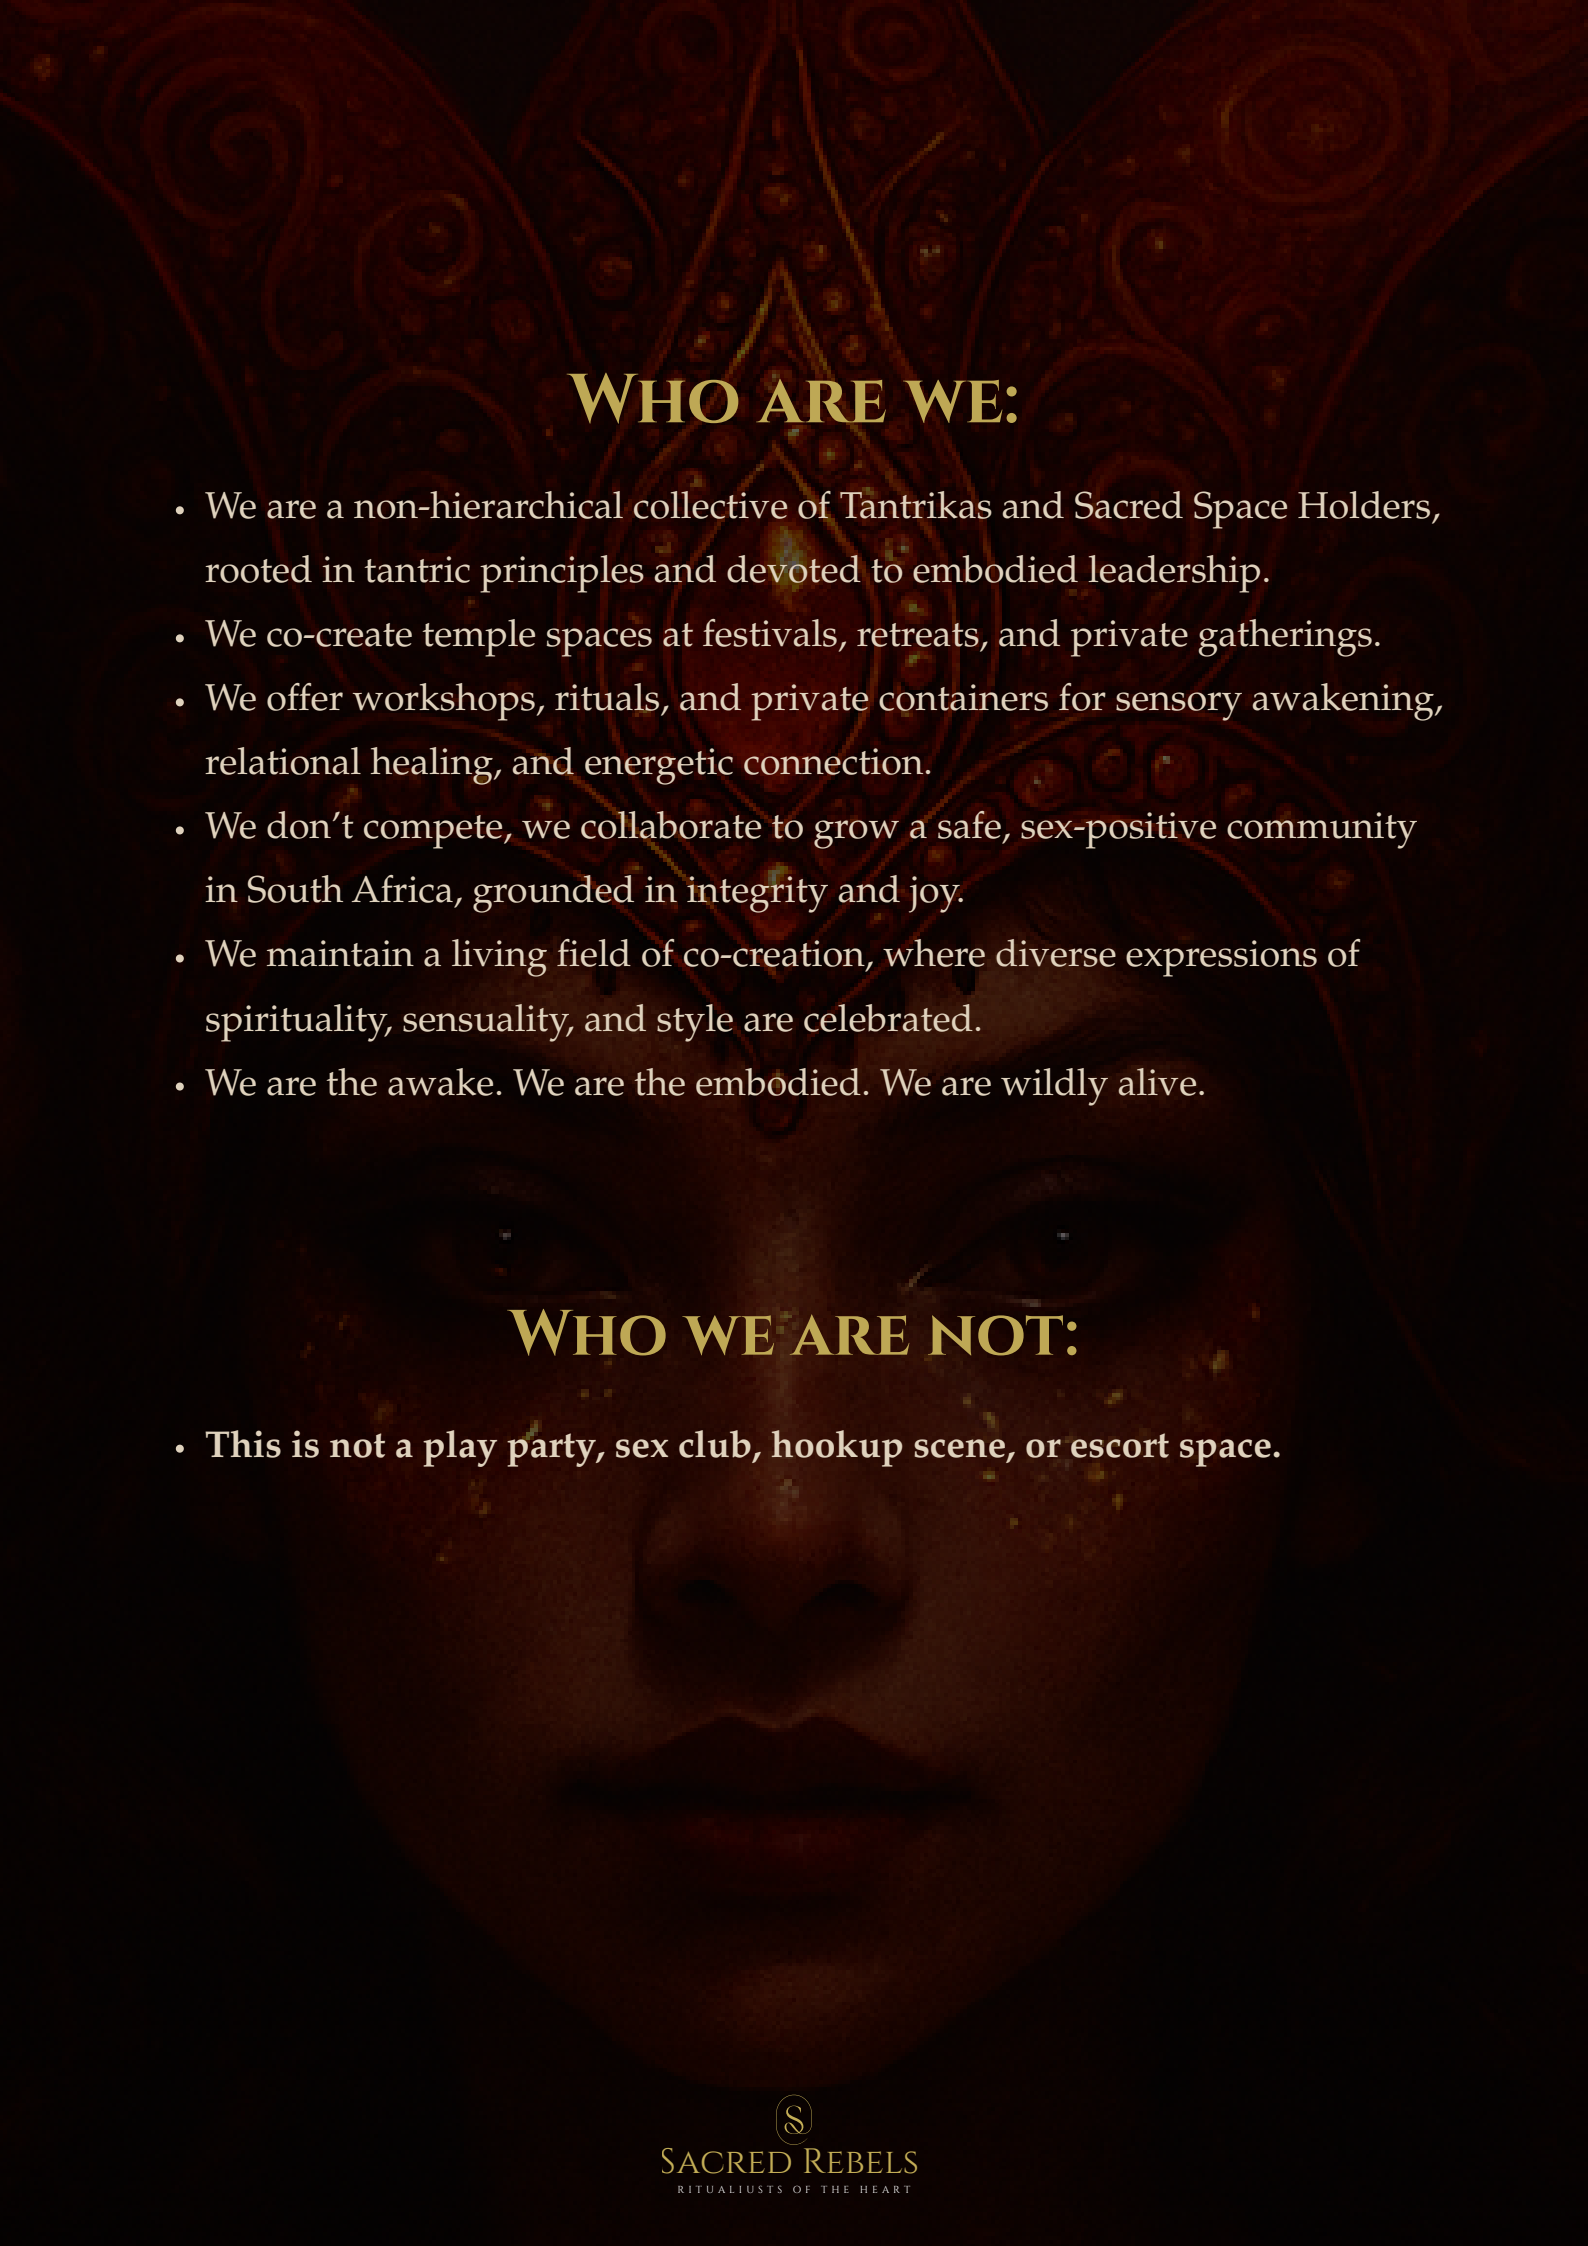

Cultivate a playful and powerful network of sacred space holders who:

- Co-create intentional temple spaces at festivals, retreats, and gatherings.
- Uplift one another through skill-sharing, peer mentorship, and support.
- Model collaborative leadership rooted in generosity and integrity.
- Infuse the collective field with truth, joy, sensuality, playfulness and devotion.

SACRED REBELS

RITUALISTS OF THE HEART

A close-up, low-key photograph of a woman's face, looking directly at the camera. Her features are softly lit, and her expression is calm. Overlaid on her face and the background is a large, intricate golden mandala. The mandala has a central diamond shape with complex, swirling patterns radiating outwards, resembling traditional South African or African-inspired designs. The overall color palette is warm, with deep reds, oranges, and golds.

WHO ARE WE:

- We are a non-hierarchical collective of Tantrikas and Sacred Space Holders, rooted in tantric principles and devoted to embodied leadership.
- We co-create temple spaces at festivals, retreats, and private gatherings.
- We offer workshops, rituals, and private containers for sensory awakening, relational healing, and energetic connection.
- We don't compete, we collaborate to grow a safe, sex-positive community in South Africa, grounded in integrity and joy.
- We maintain a living field of co-creation, where diverse expressions of spirituality, sensuality, and style are celebrated.
- We are the awake. We are the embodied. We are wildly alive.

WHO WE ARE NOT:

- This is not a play party, sex club, hookup scene, or escort space.

THE COVEN

- **Invitation-only:** Facilitators. Mentors. Peers. Creators.
- **Those who hold the field.**
- Facilitators, co-mentorship, peer support, co-creation and skill swaps are offered in a field of mutual respect, leadership and magick.
- WhatsApp group, resource sharing, gatherings, and behind-the-scenes love.

THE COMMUNITY

- **Application-based:** Seekers. Nomads. Initiates. Explorers.
- **Those entering or in the field.**
- An inclusive container to amplify all who fluidly work in our field.
- For energetic exchange, peer support, training, collaboration and opportunities.

COMMUNITY CARE

We create spaces rooted in safety, integrity, and care.

To support that, every gathering includes:

- **Guardians / Angels of the space** – facilitators dedicated to protection and presence.
- **A substance-free environment** – ensuring clear minds and grounded bodies.
- **Arrival screening** – a gentle check-in to keep the container aligned and secure.
- **Trained facilitators** – skilled guides who hold structure, safety, and support.
- **A simple reporting system** – so concerns can be voiced and addressed with accountability.
- **Clear Descriptions & Disclaimers** – transparent descriptions of experiences with agreements that outline shared responsibility and expectations.

In our spaces, we commit to Safe, Sane, and Consensual (S.S.C.) practices as principles to protect and empower.

- **Safe** – We share knowledge, practice skills responsibly, and look out for each other's well-being. Safety is a shared responsibility.
- **Sane** – We pause, reflect, and choose with clarity. Decisions are made with grounded awareness, not impulse or coercion.
- **Consensual** – Every interaction is rooted in freely given, informed, and ongoing consent. Consent is the foundation of trust, and trust is the fabric of our community.

These commitments serve as a living agreement: an ethic of care that honours personal boundaries, nurtures mutual respect, and facilitates growth.
